

CANOPY & SUBCANOPY TREE THINNING COST-SHARE PROGRAM

Thank you for your interest in the Village’s Canopy & Subcanopy Tree Thinning Cost-Share Program. The Program requirements are authorized by "An Ordinance Providing for Ecological Cost-Share Programs in the Village of Riverwoods" and are subject to such ordinance, as from time to time amended. Note: an Ecological Consultation and approval from the Village Ecologist is required prior to applying for the Program. Attached you will find the Application and Contractor Specifications. **Please read all requirements carefully and complete the checklist before submitting your completed application.** The Canopy & Subcanopy Tree Thinning Program is a 50/50 cost-share program. The Village’s share limit is \$4,000. There is a \$100 non-refundable application fee. Once approved for the program, the applicant is allowed to re-apply one time each fiscal year (January 1) if desired. Note: the Village will not reimburse an applicant who performs the work themselves rather than hiring a qualified contractor.

The intent of the Canopy & Subcanopy Tree Thinning Program is to provide for the removal of selected canopy & subcanopy trees to reduce shade levels and competition for desirable species such as young oak trees that are present on a property or that will be planted. It requires an assessment by the Village Ecologist of the existing conditions and potential trees to be removed. The applicant must hire a qualified contractor to remove the trees per the attached Contractor Specifications and Performance Standards.

To be eligible to participate in the program, the applicant must certify that they will comply with all requirements set forth in this packet. The property owner is responsible for property locations and staking their property lines. **Note: This program does not apply to removal of dead trees.**

After the application is approved by the Village Ecologist, the applicant will receive a permit from the Village to proceed with the work as proposed in the application. Once the work is completed, notify the Village and the Village Ecologist will conduct a site visit to verify the work has been completed per the approved Application, Contractor Specifications, and Performance Standards. The reimbursement request is then forwarded to the Village Board for approval. Reimbursement can be expected in 1 to 3 months following the approval of work.

Checklist for Canopy & Subcanopy Tree Thinning Program:

- 1. Conduct the required Ecological Consultation with the Village Ecologist.

- 2. Receive map and specifications (completed by Village Ecologist) including Canopy & Subcanopy Tree Thinning Program information packet and application from the Village. The Application form is attached but can also be obtained from Village Hall or by downloading from the Village Website.

- 3. Receive permit from Village then hire a qualified contractor to perform canopy & subcanopy thinning per the provided map/plan, Contractor Specifications and Performance Standards.

- 4. Submit a copy of the paid contractor invoice to the Village Hall and request a final inspection by the Village Ecologist. The Village Ecologist will inspect the work, review the contractor invoice, and contact the applicant, if necessary, for clarification and approve the payment of reimbursement from the Village. The Village Board will then approve the reimbursement payment to the applicant within 1 to 3 months.
