

SAMPLE LIST OF CONTRACTORS FOR ECOLOGICAL COST-SHARE PROGRAMS

The following Contractors have experience with the various aspects of ecological restoration. Your arborist or landscape contractor may also be qualified to perform this work, but many may not be.

The following general selection criteria should be considered when hiring a contractor to carry out ecological restoration work:

- Knowledge of tasks, references, and experience with similar work.
- It is a good idea to obtain proposals from more than one qualified contractor. The scope of proposed work should be comparable between contractors.
- Proper insurance coverage (a copy of the contractor’s current Certificate of Insurance must be on file with the Village prior to commencing work).
- If herbicide is used to remove invasive species, the person applying the product must have a valid Applicator’s License issued by the State, and a copy of the License must be on file with the Village prior to commencing work.
- The contractor must have proper burn training if implementing a prescribed burn.

Local Ecological Restoration Contractors

The following table includes a partial list of local Ecological Restoration Contractors. It is provided as a reference, and is neither an endorsement nor a recommendation of services by the Village. The absence of a firm from the list does not constitute a negative endorsement.
